

SECRET

15 July 1982

MEMORANDUM FOR: DCI
DDCI

FROM : Special Assistant, Interdepartmental Affairs

SUBJECT : Agenda for Breakfast Meeting with Defense,
16 July 1982

1. Weinberger and Carlucci plan to raise the following.

-- Iran/Iraq War.

They would like to discuss the implications of the fighting between Iran and Iraq. You should be well prepared for such a discussion based on the work done by [] and others. Included are some talking points from [] his memo of yesterday which you have asked to be updated and expanded, recent reporting and a brief military assessment by []. You will have the most recent reporting on the fighting in tomorrow morning's publications.

25X1

25X1

25X1

-- Lebanon.

Weinberger and Carlucci also wish to discuss the current scene in Beirut. Enclosed are copies of this morning's publications on this subject including the item on Israel's success in countering Soviet weaponry. You will have the most recent information in tomorrow's publications.

-- Radio-Marti.

Carlucci apparently wishes to brief you on the status of the program to set up a radio station. [] has provided the latest he has based on a conversation he had yesterday with []. [] It appears that the program is on track on the Hill and DoD is being helpful in providing a transmitter. There is still concern over potential Cuban reactions.

-- DoD HUMINT Program/ISA and Revision of DCID 5-2.

I was told that Carlucci wants to brief you on where we stand in our efforts to coordinate on procedures governing Defense's intelligence activities overseas. [] is working on a draft MOU. Meanwhile, as you know, the SSCI has scheduled a hearing for 22 July which I suspect will be somewhat of a replay of the HPSCI hearing in June. Carlucci apparently plans to brief you on Stilwell's testimony on Tuesday before the HAC.

25X1

2. You asked to raise the following.

-- Somalia/Ethiopia.

The USG appears to be reacting to Siad's request for immediate US help given the trouble on the border. [] Memorandum For The Record on this morning's meeting at State will bring you up to date on where things stand. Meanwhile, [] has provided you a couple of memos on our program and efforts to move equipment from Defense to Somalia. Our analysts say that little has changed since Monday in the fighting and no major Ethiopian invasion is envisioned because most of the Ethiopian forces are still committed to the Eritrea.

25X1

25X1

-- Kampuchea.

You asked that the Kampuchean Presidential Finding be put on the agenda. Stilwell's people believe we should do even more. This may be the position that Weinberger takes tomorrow.

3. You may also wish to raise the following two topics.

-- US/Western European Economic Relations.

You (DCI) may wish to share your thoughts on this subject in advance of tomorrow's NSC meeting.

-- OMB--NFIB.

Even though your meeting with Stockman fell through yesterday you may wish to mention to Carlucci that OMB is finally interested in learning more about the intelligence budget.

4. Stan Sporkin sent you a memo on NSA []

25X1

[] He suspected that Weinberger may want to raise this with you. Therefore, it is only for your information unless he raises it. I have received no indication that he will.

25X1

5. Finally, in light of Monday's NSC on a comprehensive nuclear test ban you may wish to solicit Weinberger's and Carlucci's thoughts on the subject.
